Exp. Date: ____ / ____ Security Code: _____

In case you have questions about whether churches can advocate for the Love Life Amendment, we have included the following information: Churches and their institutions and ministries are legally permitted to wholeheartedly promote the passage of the Love Life Amendment in all activities. In fact, your advocacy will be essential to the passage of the amendment!

- A 501(c)(3) organization, including a church, is allowed to engage in an "insubstantial" amount (no more than 15% of its total expenditures for the year, considering the time and effort expended, the use of facilities and property, and the amount of information disseminated) of lobbying. The IRS defines lobbying to include advocacy "for" or "against" a ballot referendum for a constitutional amendment.
- If your church orders supplies through the Louisiana Pro-Life Amendment Coalition / Louisiana Right to Life Federation, we will handle state reporting requirements for you. Please note that your entity's name, address, and amount of contribution will be reported in a publicly accessible campaign finance report. However, if your church acts independently AND spends \$1,000 or more to promote the amendment, then you would be required to file a Campaign Finance Ethics Report. Contact our office for more information and assistance.
